BIG BIG Release right here! After months of hard work our biggest release on Sub Element is set to drop.

Australian producer Isolate turns up the heat with a 4 x 4 twisted masterpiece, Artilect.

3 heavy remixes follow suit here. Too Dusty throws in his heavy style of fat beats and techy basslines, Big Mistake does what he does best, and to round off Ronin8 takes things along the progressive track.

Huge! You need this in your armoury
